

Dear Parents,
In Geography the children in my class have been studying the local environment, particularly the issue of car parking, and recent improvements that have been made. This involved conducting surveys of where cars park at various times in the day. We then talked about what they had found out. They had very clear ideas about what could be done to improve the parking even more, and were eager to share them with you. Below are a few examples of their work.
Yours sincerely,
Mrs Hume (Year 1/2 class teacher)

Dear parents,
We have been looking at our school car park in our Geography lessons. We have made a survey. At home time people are parking in the layby and when the buses come and the children can't get on they get upset. please park in the Village College car park. Thank you.
from Poppy
aged 7 Mrs Hume's class.

Dear parents
Please park in the Village College car park. If you park in the layby the bus can't park.

Aged 7
Mrs Hume's class.

Dear parents
At Bassingbourn Primary School we have been learning about car parking. Please move your cars in to the Village College car park. Thank you
from Bethanie
Aged 7
Mrs Hume's class

Dear parents,
We have been looking at car parking surveys and been seeing cars parking in the layby at home time. So if you need to park in the layby we have seen that there are spaces in the Village college car park instead.
Thank you
from Eve
